PERMAGRIT TOOLS

SANDING BLOCKS

Light and easy to hold, these Permagrafit sanding blocks are of anodized aluminum extrusion. Tungsten carbide strips are then bonded to the flat faces. Truly flat, these Permagrafit blocks are great for straight edges and they will sand a perfect right-angle when placed on their side.

22" x 2" Sanding Block

(60 grit one side, 120 grit opposite side)

PMGSB560

\$49.99

11" x 2" Sanding Block

Sands straight edges, and a perfect right-angle when placed on its side.

(60 grit one side, 120 grit opposite side)

PMGSB280

\$33.99

PERMAGRIT TOOLS

5.5" x 2" Wedge

(60 grit one side, 120 grit opposite side)

PMGWB140

\$23.99

HAND TOOLS

Flexible Strips 11"x2"

These flexible strips are made from tungsten carbide welded to thin steel sheets. This enables them to be cut and bent easily to any desired profile.

PMGFXT103
11"x 2" Flex-Strip (120 grit) **\$10.99**

PMGFXT104
11"x 2" Flex-Strip (60 grit) **\$10.99**

Permagrafit External Grit Curve File

Rigid steel curved used to enlarge grooves, fit fillets & cowlings.
