HEAD LOCK

The Head Lock Glow Plug Connectors feature the original patented spring loaded "Twist-Lock" design and heavy duty power cords. In mid-2000 they were upgraded with stronger springs. To attach to a glow plug you simply push down and turn. The Head Lock can be powered by any 1.2V to 1.5V battery or power panel.

Head Lock Professional w/Stainless Steel Body and 48" Cord **MOD037 \$12.75**

HEAD LOCK REMOTE

The Head Lock Remotes have the same Twist-Lock design of the Head Locks, but are low profile to fit under cowls. They have a remote glow plug connector, allowing the pilot to power the glow plug from any point on the model (away from the prop). Mounting bracket and connectors included.
