

**Drive Washer Puller**

Excellent, cost-effective tool for removing the thrust washer from the crankshaft on RC aircraft engines. The jaw tips are specially shaped to help prevent damage to washer during removal.

**Header Adapter Ring**

Central Hobbies' answer to properly fitting the NMP Pattern Header to the Hatori #821 muffler (as well as Hatori's #699, #724 and others with the same intake diameter). Made of specially formulated super tuff Viton, the Central Hobbies adapter hangs in there for 50+ flights in actual flight tests with competition-grade pattern planes.

**Why Viton?**

Viton® fluoroelastomer is well known for its excellent (400+°F/200+°C) heat resistance. Viton® offers excellent resistance to aggressive fuels and chemicals and has worldwide ISO 9000 and ISO/TS 16949 registration. The use of this proven material in our header adapters increases the life of exhaust connections, allowing many more flights before replacement.

**NOTHING IS BETTER**

**CENTRAL HOBBIES TITANIUM & CARBON FIBER PUSHRODS**

**CENTRAL TO A WINNING CONTROL LINKAGE ASSEMBLY**

Central Hobbies offers the best pushrod for your Pattern, IMAC, or other airplane! **Stronger, stiffer and much lighter.** Besides weighing **less than half** as much as a threaded rod, the completed carbon-titanium pushrod is far more rigid, meaning less chance of flutter or deflection under flight loads. The titanium fittings have approx. 3/4" of barbed insert for gluing into the rods and 3/4" of threads for adjustment. Available in four diameters (1/8, 5/32, 3/16, and .210) with matching fittings. All sets include 4 Titanium end fittings. Fittings and rods are also available separately in several sizes.

**PUSHROD SETS**

(2 RODS, 4 ENDS)

CHMPRS24T2	24x5/32" Rods/2-56 Ends.....	\$15.95
CHMPRS24T4	24x5/32" Rods/4-40 Ends.....	15.95
CHMPRS35T2	35x1/8" Rods/2-56 Ends.....	14.95
CHMPRS36T4	36x3/16" Rods/4-40 Ends.....	16.95
CHMPRS36T6	36x3/16" Rods/6-32 Ends.....	16.95
CHMPRS36T8	36x3/16" Rods/8-32 Ends.....	16.95
CHMPRS38T4	38x.210" Rods/4-40 Ends.....	18.85
